

Poway High School Robotics Club
15500 Espola Rd.
Poway, CA 92064

The **Poway High School Robotics Team** is on the move! After completing ten years of competition in the international FIRST Robotics program, this young team of future engineers and business people needs your help to build the PHS Robotics program into something the entire community can be proud of. With your help, we can realize our goal of collaborating, designing, and constructing a world champion robot and becoming a world robotics championship team.

The vision of the FIRST Founder is "... to create a world where science and technology are celebrated, where young people dream of becoming science and technology heroes". Check out <http://www.firstinspires.org/> for more information about this great program. You can be the catalyst to this inspired vision by helping us build the financial support essential to participating.

Our team has increased to over 60 students strong, Our goal is to raise \$100,000 to attend three regional competitions in early 2016 for FRC, attend two regional competitions for VEX in 2015-16, and the world championship in Saint Louis for FRC 2016. Please consider helping our students with financial support. Any amount you are able to contribute will make a difference. All donors will be recognized on our website. Premier donors will also have their company logos prominently displayed on the robot and our team shirts. Please visit our website www.teamspyder.org.

If we can answer any questions or if you would like to arrange a meeting with the students to hear more; please return the attached response card. You may also contact **Mr. Rodger Dohm at w.858-748-0245 Ext 5307, c.760-484-4392 or rdohm@powayusd.com**. Mr. Dohm is the robotics teacher and advisor to the club.

Our goal for next year is to win the San Diego Regional competition, and then go to the world championship event in Saint Louis, compete against four hundred high schools from around the world, and win it all! You can help us get there!

Thank you for your consideration,
